Collage and Architecture

Jennifer A.E. Shields

Collage and Architecture Jennifer A.E. Shields

Collage and Architecture is the first book to cover collage as a tool for design in architecture, making it a valuable resource for students and practitioners. Author Jennifer Shields uses the artworks and built projects of leading artists and architects, such as Le Corbusier, Daniel Libeskind, and Teddy Cruz to illustrate the diversity of collage techniques. The six case study projects from Mexico, Argentina, Sweden, Norway, the United States, and Spain give you a global perspective of architecture as collage. Collage is an important instrument for analysis and design, and Shields's presentation of this versatile medium draws on decades of relevance in art and architecture, to be adapted and transformed in your own work.
