Globalism, Nationalism, Tribalism: Bringing Theory Back in (Theory, Culture & Society (Paperback))

Paul W James

Paul James has written a magnificent account of the world's current condition, one that highlights the complexities and contradictions with which people, communities, and nations must contend and that does so in a compelling and creative style. Stressing the interaction between global and local forces, his writing style is lively and compelling as well as peppered with a wide range of citations, from *Woman's Day* to the *Cambodian Daily* (on the same page!) - *James N Rosenau, University Professor of International Affairs, The George Washington University*

Globalism, Nationalism, Tribalism establishes a new basis for understanding the changing nature of polity and community and offers unprecedented attention to these dominant trends. Paul James charts the contradictions and tensions we all encounter in an era of increasing globalization, from genocide and terrorism to television and finance capital.

Globalism is treated as an uneven and layered process of spatial expansion, not simply one of disorder, fragmentation or rupture. Nor is it simply a force of homogenization.

Nationalism is taken seriously as a continuing and important formation of contemporary identity and politics. James rewrites the modernism theories of the nation-state without devolving into the postmodernist assertion that all is invention or surface gloss.

Tribalism is given the attention it has long warranted and is analyzed as a continuing and changing formation of social life, from the villages of Rwanda to the cities of the West.

Theoretically adept and powerfully argued, this is the first comprehensive analysis that brings these crucial themes of contemporary life together.
