This book showcases the very best of the photography as judged in the Sustainable Seas Trust 2013/14 competition. The extraordinary, prize-winning photographs are accompanied by illuminating essays from leading scientists, sports people and others whose lives are intimately connected with the seas. It also serves as a call to create a South African network of Hope Spots, which are special, people-orientated marine conservation areas. The hope is that, with the close involvement of the communities that live near and depend on the seas, we can safeguard our natural resources.
