Human-Centric Interfaces for Ambient Intelligence

Human-Centric Interfaces for Ambient Intelligence

To create truly effective human-centric ambient intelligence systems both engineering and computing methods are needed. This is the first book to bridge data processing and intelligent reasoning methods for the creation of human-centered ambient intelligence systems. Interdisciplinary in nature, the book covers topics such as multi-modal interfaces, human-computer interaction, smart environments and pervasive computing, addressing principles, paradigms, methods and applications. This book will be an ideal reference for university researchers, R&D engineers, computer engineers, and graduate students working in signal, speech and video processing, multi-modal interfaces, human-computer interaction and applications of ambient intelligence.

Hamid Aghajan is a Professor of Electrical Engineering (consulting) at Stanford University, USA. His research is on user-centric vision applications in smart homes, assisted living / well being, smart meetings, and avatar-based social interactions. He is Editor-in-Chief of "Journal of Ambient Intelligence and Smart Environments", has chaired ACM/IEEE ICDCS 2008, and organized workshops/sessions/tutorials at ECCV, ACM MM, FG, ECAI, ICASSP, CVPR.

Juan Carlos Augusto is a Lecturer at the University of Ulster, UK. He is conducting research on Smart Homes and Classrooms. He has given tutorials at IJCAI'07 and AAAI'08. He is Editor-in-Chief of the Book Series on "Ambient Intelligence and Smart Environments" and the "Journal of Ambient Intelligence and Smart Environments". He has co-Chaired ICOST'06, AITAmI'06/07/08, and is Workshops Chair for IE'09.

Ramón López-Cózar Delgado is a Professor at the Faculty of Computer Science and Telecommunications of the University of Granada, Spain. His research interests include speech recognition and understanding, dialogue management and Ambient Intelligence. He is a member of ISCA (International Speech Communication Association), SEPLN (Spanish Society on Natural Language Processing) and AIPO (Spanish Society on HCI).

- Integrates engineering and computing methods that are essential for designing and implementing highly effective ambient intelligence systems
- Contains contributions from the world's leading experts in academia and industry
- Gives a complete overview of the principles, paradigms and applications of human-centric ambient intelligence systems

Download and Read Free Online Human-Centric Interfaces for Ambient Intelligence

From reader reviews:

Quincy Eddy:

The event that you get from Human-Centric Interfaces for Ambient Intelligence could be the more deep you digging the information that hide inside the words the more you get interested in reading it. It doesn't mean that this book is hard to know but Human-Centric Interfaces for Ambient Intelligence giving you thrill feeling of reading. The copy writer conveys their point in particular way that can be understood by anyone who read this because the author of this publication is well-known enough. This kind of book also makes your current vocabulary increase well. It is therefore easy to understand then can go along with you, both in printed or e-book style are available. We highly recommend you for having that Human-Centric Interfaces for Ambient Intelligence instantly.

Teddy Hathorn:

Reading a guide can be one of a lot of exercise that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people enjoy it. First reading a guide will give you a lot of new details. When you read a publication you will get new information because book is one of many ways to share the information or even their idea. Second, looking at a book will make you actually more imaginative. When you reading through a book especially fictional book the author will bring that you imagine the story how the figures do it anything. Third, it is possible to share your knowledge to other individuals. When you read this Human-Centric Interfaces for Ambient Intelligence, you could tells your family, friends as well as soon about yours guide. Your knowledge can inspire the others, make them reading a guide.

Alan Malbrough:

The reserve untitled Human-Centric Interfaces for Ambient Intelligence is the e-book that recommended to you to read. You can see the quality of the e-book content that will be shown to an individual. The language that creator use to explained their ideas are easily to understand. The author was did a lot of exploration when write the book, to ensure the information that they share for your requirements is absolutely accurate. You also could possibly get the e-book of Human-Centric Interfaces for Ambient Intelligence from the publisher to make you much more enjoy free time.

Maria Forshee:

The book untitled Human-Centric Interfaces for Ambient Intelligence contain a lot of information on that. The writer explains your girlfriend idea with easy way. The language is very clear to see all the people, so do certainly not worry, you can easy to read the idea. The book was published by famous author. The author gives you in the new period of time of literary works. You can easily read this book because you can please read on your smart phone, or gadget, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can available their official web-site along with order it. Have a nice go through.
