At not quite fifteen, Stefan's father finally let him board the longship Sja Vinna to take part in his first Viking raid. But the battle was not at all what he expected and he found himself alone and stranded in Scotland.

Thirteen-year-old Kannak's problem was just as grave. Her father deserted them and the only way to survive, she decided, was to take a husband over her mother's objections. Then suddenly she found herself helping a hated Viking escape. Could Kannak successfully hide a Viking in the middle of a Scottish Clan? And why was someone plotting to kill the clan's beloved laird?
