A must-have for designers, not to mention that quirky group in love with type for type's sake (you know who you are), *Typology* is the most visually dynamic compendium of typefaces on the market. Steven Heller and Louise Fili, two of the most admired and respected designers working today, cover everything from the classic elegance of the late 19th century to the fractured hypermedia of today. Organized by historical era and country of origin, each section introduces the culture and aesthetic of the period, discusses how individual styles developed, and offers insights into the artistry of key typographers and foundries. Expertly assembled and thoughtfully written, no other book encompasses this wealth of type styles in historical context. Its pages are profusely illustrated with hundreds of complete alphabets, and such original artifacts as typesheets, catalogs, broadsides, posters, and many other primary source examples. In all, *Typology* is the long-awaited type encyclopedia destined to be a standard reference work for years to come.
