## **The Absurdity Principle** Gary Gentile

Did you know that Senator Robert Byrd passed laws all by himself, against the wishes of the American public? Did you know that people have been fined for making wild sea lions bark, because it violated the Marine Mammal Protection Act? Did you know that slavery still exists in America? Did you know that after the terrorist attack on the Pentagon, firefighters and rescue workers were not allowed to extinguish fires or provide emergency medical service because they did not have security clearance? Did you know that tourists are allowed to walk on top of the USS Arizona, but are prevented from swimming next to it? Did you know that in certain instances, a plaintiff is presumed guilty until he proves his innocence beyond all reasonable doubt? How absurd is it that people complain about paying \$3 for a gallon of gasoline, but willingly pay more than \$20 per gallon for drinking water? Tap water is free, but convenience store prices for bottled water are outrageous. Do you know how easy it is to cross the American border without going through customs? Did you know that the National Park Service operates sting operations against unwary visitors? Did you know that the government has mandated employment for individuals who are not capable of performing the job for which they were hired, and that they are paid the same wage as people who can do the job? It is bad enough that these blatant absurdities exist. What is worse is that they are commonly accepted. Worst yet, not only is nothing being done to correct them, they are proliferating and being perpetuated. The Absurdity Principle is replete with examples of everyday inanities, from serious breaches of Constitutional law to fraudulent activities that are sanctioned by the government. This is a book that will make your blood boil - unless you are an unethical accomplice who is profiteering from flaws in a system gone awry. It is time for people to condemn and castigate absurdities for what they are, to correct silly and farcical situations, to legislate changes in the laws of the land, and to make reason and rationality the way of life. This book will teach you how to get started on the path to deliverance from a world that has gone through the looking glass to tolerate madness and chaos.

### From reader reviews:

#### **Jennifer Wadsworth:**

Nowadays reading books become more than want or need but also turn into a life style. This reading routine give you lot of advantages. Associate programs you got of course the knowledge your information inside the book that will improve your knowledge and information. The data you get based on what kind of publication you read, if you want send more knowledge just go with education books but if you want sense happy read one with theme for entertaining such as comic or novel. The particular The Absurdity Principle is kind of e-book which is giving the reader unforeseen experience.

#### **Patricia Koop:**

Reading a guide tends to be new life style on this era globalization. With studying you can get a lot of information that can give you benefit in your life. Using book everyone in this world could share their idea. Guides can also inspire a lot of people. Lots of author can inspire their very own reader with their story or their experience. Not only the storyplot that share in the publications. But also they write about advantage about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors nowadays always try to improve their talent in writing, they also doing some study before they write for their book. One of them is this The Absurdity Principle.

#### **Gerald Magee:**

Reading a book being new life style in this year; every people loves to study a book. When you examine a book you can get a lots of benefit. When you read guides, you can improve your knowledge, because book has a lot of information onto it. The information that you will get depend on what sorts of book that you have read. If you want to get information about your research, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, these us novel, comics, as well as soon. The The Absurdity Principle provide you with a new experience in examining a book.

#### **Mary Fox:**

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's soul or real their passion. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that studying is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this The Absurdity Principle can make you experience more interested to read.
