In this collection, Andrew Zuckerman, beloved photographer of *Creature* and *Bird*, moves from fauna to flora, turning his lens onto the most beautiful specimens of the plant kingdom. Spectacular close-up images of 150 flower species, both exotic and familiar, are lovingly captured in Zuckerman's bold yet sensitive signature style. Showcased against pure white backgrounds, the complexity of color and structure in each specimen is revealed—creating flower portraits of astonishing radiance and detail. Zuckerman's award-winning minimalism serves as the perfect foil for these lush natural wonders. A rich visual tour of nature's most beloved beauties, this substantial tome is a timeless treasure for flower lovers, garden enthusiasts, photography buffs, and collectors of Zuckerman's work. Plus, this is the first format version, which includes beautiful high-resolution images.
