Intermediate Algebra, Books a la Carte Edition (3rd Edition) Michael Sullivan III, Katherine R. Struve
This edition features the exact same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook.

The **Sullivan/Struve/Mazzarella Algebra program** is designed to motivate students to “do the math”—at home or in the lab—and supports a variety of learning environments. The text is known for its two-column example format that provides annotations to the left of the algebra. These annotations explain what the authors are about to do in each step (instead of what was just done), just as an instructor would do.
