Amazing Kitchen Chemistry Projects You Can Build Yourself (Build It Yourself series) Cynthia Light Brown

Kids will learn how to shoot candy and soda 10 feet up in the air or create a crystal collage with the key chemistry concepts and exciting yet educational projects in this handbook. With more than two dozen fascinating projects illustrating major chemistry themes—including atoms and molecules; the characteristics of solids, liquids, and gases; chemical reactions; acids and bases; and the properties of water—children learn the theory behind each project and then see the principles in action. A combination of wacky experiments, yummy cooking projects, and unusual creations, the activities can all be completed using common household materials and include walking on “goop,” making taffy, viewing the world from inside a giant bubble, and many more sure to keep kids investigating how the world works.
