Selected Topics in the History of Biochemistry. Personal Recollections. Part III: v. 3 (Comprehensive Biochemistry) Giorgio Semenza

As in Volumes 35 and 36, the chapters in this new volume complement, with personal recollections, the History of Biochemistry that was covered in the Comprehensive Biochemistry Series, Volumes 30-33 by M. Florkin and Volume 34A by P. Laszlo. The biographical and autobiographical chapters will convey to the reader a lively, albeit at times subjective, view of the scientific and social environment in which the authors have worked, resulting in new concepts and theories on the biological sciences.
