Voici 51 ans que les praticiens du Centre Viggo Petersen de l'hôpital Lariboisière, ceux de l'hôpital Bichat et d'autres hôpitaux de la région parisienne présentent au public rhumatologique francophone un relevé documenté de l'Actualité récente concernant leur spécialité.

Chacun des volumes y compris celui-ci (le 51e) fait le point des connaissances et des nouveautés cliniques, physiopathologiques et thérapeutiques touchant la pathologie de l'appareil locomoteur telle qu'on la définit et l'étudie dans notre pays.

La trentaine des exposés de ce volume comme des précédents intéresse donc, à côté des rhumatologues, les orthopédistes, les neurologues, les endocrinologues et les internistes.

Les 30 chapitres de cette 51e édition couvrent l'ensemble des domaines définis ci-dessus ; les deux derniers sont depuis quelques années spécifiquement consacrés aux toutes dernières nouvelles touchant les pathologies articulaires et osseuses. Ils référencient les travaux de cette année et de l'année 2013. Les différents chapitres qui ont fait l'objet d'une présentation orale aux Journées du printemps dernier comportent un total de près de 1 000 références.

Comme les autres années, deux index, l'un couvrant le contenu de ce 51ème volume, l'autre permettant de retrouver la totalité des articles parus depuis plus de 50 ans complètent l'ouvrage qui constitue ainsi une source irremplaçable de documentation.
