Geoff Waring

Oscar and the Cricket: A Book About Moving and Rolling (Start with Science) Geoff Waring
Start with Science books introduce kids to core science concepts through engaging stories, fresh illustrations, and supplemental activities.

One day Oscar sees a ball in the grass. "Try pushing it!" says Cricket. Oscar learns that the ball rolls slowly in grass and faster on a path, until it bounces off a tree and changes direction. Some things need a push to move, and others use their muscles to move themselves — and to move plenty of other things, too.
